

The law does allow the RTC to borrow from the Treasury up to \$ 5 billion at any time .

The diagram illustrates the hierarchical structure of the sentence using brackets. Black brackets are positioned above the text, and red brackets are positioned below it. The black brackets group the text into a nested hierarchy: 'The' and 'law' are grouped together; 'does' and 'allow' are grouped together; 'the' and 'RTC' are grouped together; 'to' and 'borrow' are grouped together; 'from' and 'the' are grouped together; 'Treasury' and 'up to' are grouped together; '\$ 5 billion' and 'at' are grouped together; and 'any time .' are grouped together. The red brackets group the text into a different hierarchy: 'The' and 'law' are grouped together; 'does' and 'allow' are grouped together; 'the' and 'RTC' are grouped together; 'to' and 'borrow' are grouped together; 'from' and 'the' are grouped together; 'Treasury' and 'up to' are grouped together; '\$ 5 billion' and 'at' are grouped together; and 'any time .' are grouped together. A large red bracket at the bottom groups the entire sentence.

The complicated language in the huge new law has muddied the fight .

The image displays a sentence with two sets of brackets illustrating syntactic structures. Black brackets are positioned above the text, and blue brackets are positioned below it. The black brackets show a hierarchical structure where 'The complicated language in the huge new law' is grouped together, followed by 'has muddied the fight', and a final bracket for the period. The blue brackets show a different grouping, with 'The complicated language' and 'in the huge new law' grouped together, followed by 'has muddied the fight', and a final bracket for the period.

The law does allow the RTC to borrow from the Treasury up to \$ 5 billion at any time .

The diagram illustrates the hierarchical structure of the sentence using brackets. Black brackets are positioned above the text, and blue brackets are positioned below it. The blue brackets are nested within the black brackets, indicating a more granular level of grouping. The black brackets group the sentence into three main parts: 'The law does allow the RTC to borrow from the Treasury', 'up to \$ 5 billion', and 'at any time .'. The blue brackets group the sentence into four parts: 'The law does allow the RTC to borrow from the Treasury', 'up to \$ 5 billion', 'at any time', and a final period '.'.

The complicated language in the huge new law has muddied the fight .

The law does allow the RTC to borrow from the Treasury up to \$ 5 billion at any time .

The diagram illustrates the hierarchical structure of the sentence using brackets. Black brackets are positioned above the text, and purple brackets are positioned below it. The purple brackets are nested, indicating a more granular level of grouping than the black ones. The sentence is: "The law does allow the RTC to borrow from the Treasury up to \$ 5 billion at any time ."
